Hello Arik,

I do not understand your email response? Please explain.

Hershey and Mendel, the email I sent email is very important to gather documentation of the authenticity of the MedCare gloves. We have a serious issue with our client that we would like to distinguish with proper documentation and testing reports. This obviously has a domino effect to all parties involved. Please help by sending all testing reports for all lots received.

Our attempt to mitigate this immediately would be helpful for all parties.

Hershey and Mendel,

This email is intended to be positive and work towards solutions.

We have a huge issue that effects both of us. This is an issue neither of us can afford not to mitigate as fast as we can.

Our client has boxes that are not representative on the MedCare website. They were delivered from the lot we received from you. I hope and pray these gloves are one offs and not represent

The first image is an actual MedCare box of Nitrile Examination Gloves.

Hello Hershey,

Do you have SGS or other testing documents for the gloves we received from you?

I just got a call from the hospital wanting to verify the nitrile gloves testing.

Your immediate help would be appreciated.

Kind Regards,
